## PRESS RELEASE

Bucharest, July 6th, 2020

### **Teachers from over 4000 educational institutions in Romania develop interactive online lessons with LIVRESQ**

**During the pandemic, in order to continue the educational process, teachers in Romania benefit from free access to [LIVRESQ](#), the Romanian authoring tool for interactive lessons.**

Ascendia S.A. offers the LIVRESQ editor and training webinars to help teachers continue their teaching in the online environment. LIVRESQ lessons are built and published without the need for programming knowledge.

#### **Results from the 01.03.2020-01.07.2020 period:**

1. Teachers from over 4,000 educational institutions have created accounts on the platform;
2. 1,409 interactive lessons were published;
3. More than 3,000 teachers from Romania and the Republic of Moldova were trained through the webinars;
4. A certification program for teachers has been launched.

"The date when the schools will reopen is uncertain and the way in which they will work is unclear. Many teachers understand the risk and use the LIVRESQ platform to continue the educational act online. What do we do differently? In addition to providing free access to the LIVRESQ authoring tool, we train teachers to make the best use of modern technology." said Alex Mălureanu, Co-Founder of Ascendia S.A.

Lessons created in LIVRESQ can be published and used as needed:

- on school websites (to be viewed directly from there)
- in learning platforms (LMS)
- in blogs
- can be downloaded for use without the internet
- in the LIVRESQ Virtual Library

[The LIVRESQ Virtual Library](#) contains lessons published free of charge by teachers. Anyone can enter and use these lessons in their teaching activity, without the need to create an account on the platform.

#### **About Ascendia S.A.**

Ascendia has been active on the eLearning market since 2007, being one of the main developers of software and digital content for the educational sphere in Romania. Ascendia provides teachers with digital tools to help their students develop the skills, habits and the mindsets needed to succeed in school and beyond.

#### **About [LIVRESQ](#)**

LIVRESQ is an authoring tool for education. It is used by teachers to create interactive lessons and by medium and large companies to develop eLearning courses. The company plans are to continue the

development of the LIVRESQ authoring tool, offering new features for content creators. One of the important developments underway is the ability to add virtual avatars to the lessons - characters equipped with the ability to turn text into speech, as well as artificial intelligence, in order to interact contextually with students. Externally, the company is discussing the possibility of using LIVRESQ in several large-scale projects, the publisher being currently operational in Romanian, English, Portuguese, Chinese, Arabic and Korean.

A promotional graphic for the LIVRESQ authoring tool. The background is a photograph of a person in a white lab coat pointing at a computer monitor. The monitor displays the LIVRESQ interface, which includes a navigation menu on the left and a main content area with a blue header and a pink section. The text "UL CU LIVRESQ" is visible in the header, and "CREEAȚĂ" is visible in the pink section. A red line with three circular endpoints connects the text on the monitor to the text on the left. The text on the left is as follows:
